ACKNOWLEDGMENT

This is thanks giving note for concerns, by whom researched was encourage to accomplish his work, this should be limited to one page.

ABSTRACT

An abstract is one paragraph summary of the whole dissertation to inform potential readers about its insides. A standard abstract explains in few lines what is its background, main objectives, afterward it also gives summary of the techniques or methodology including study design, sampling, data collection and findings reached. The final sentence explain the conclusion and foremost implication of the work. The abstract is concise, readable and quantitative. Length should be limited to 350 – 500 words.

Key Words: (maximum 5 key words)

Chapter 01: Introduction

- It should from general to specific, this chapter should discuss previous studies along with their limitation.
- It should justify the need to conduct the study. Rationale or justification of the study may be clearly written generally the following readings are part of this chapter.

Statement of the Problem

Significance of the study

Objectives of the study Research Questions and/or Hypotheses

Assumption (if applicable)

Operational Definitions of Key Terms (if applicable)

Chapter 02 Literature Review

This chapter should be define all contents of research. All established proposition, hypothesis and variable should be justified and supported by literature. The material used in literature recive should be paraphrased and properly cited. The research should avoid presenting material without citation. The example of intent citation is preselected as under:

- Tang, F. & Pierce J. W. (2014). Alzheimer's disease in young adults. Journal on Aging, 14(3), 220-243.
- Stein, J. (2018). Short-term memory now gone: The unfortunate circumstances related to Alzheimer's disease. Science & Discovery, 2(23), 35-57. Doi:10.1076/S0068-3942%

Chapter 03 Research Methodology:

This chapter should provide complete details with respect to sampling methodology data collection methodology and data analysis methodology all methodology employed by the researcher should be supported by pervious research. Specifically the designing of the survey instrument in the well a new instrument was designed it should be supported by the study.

- Generally the following readings are part of study:
- Sampling methodology
- Data collection data analysis.

Chapter 04 Analysis, Findings and Discussion:

This Chapter provides complete details of analysis, its result and contains discussion in the impact of results and also contains hypothesis, statistical tests with complete data tasks and graph along with results. Under qualitative research it will have discussion as to his information was abstracted commonality found b/w literature and the analysis of literature that was performed in order to desire the findings.

Chapter 05: Conclusion and Recommendations:

The conclusions should be concise and are written in the present indefinite tense. The recommendations should be specific and viable indicating some implementation strategies. Both conclusion and recommendations should be justified by data analysis and should be limited to the scope of the research. A summary of all results should be presented in the conclusion. The inference discussion from these results.

Bibliography / References:

These are the references for the in-text citations in the project. These references, are listed on the final page, and contain the full information about each source. APA format
